Post-doc positions at the G erontop ole of Toulouse

(Head of Department: Prof Bruno Vellas, MD, PhD)

The Alzheimer Clinical & Research Center of G erontop ole of the Toulouse University Hospital (Toulouse, France) is an internationally-recognized institution for clinical research in Alzheimer disease.

The G erontop ole is currently recruiting post-docs to be involved in the ongoing research programs. In particular, candidates should be able to enhance the G erontop ole studies through the publication of scientific articles in peer-reviewed journals. Post-docs with PhD in a relevant discipline (e.g., epidemiology, neurosciences, behavior disorders, biomarkers) are preferable (but not mandatory). English language fluency and adequate use of a statistical software are required. We are especially interested in applicants having the potentialities for future independent research positions. Posts are for full-time and fixed-term (period of one year, renewable for one year) appointments.

Applications should include the following documents in English:

- • A brief cover letter explaining why you would like to join our Institute
- • Your Curriculum Vitae including your publications list
- • The pdf files of one or two full-text articles of yours

Applicants should send all these documents by e-mail to Pr Maria Soto, MD, PhD (soto-martin.me@chu-toulouse.fr). Please use as object of your e-mail "Application for a post-doc position at the G erontop ole".

Shortlisted applicants will be contacted for a phone interview and a subsequent in-person interview in Toulouse.
